DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

1. Claims 1-6, 45-49, 54-56 and 67-77 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim(s) 1-6, 45-49, 54-56 and 67-77 is/are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. Supreme Court precedent¹ and recent Federal Circuit decisions² indicate that a statutory “process” under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. While the instant claim(s) recite a series of steps or acts to be performed, the claim(s) neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process. For example, at least the arranging step of the claims is not explicitly recited as tied to another statutory category.

Response to Arguments

2. The addition of claims 67-77 is noted.

¹ *Diamond v. Diehr*, 450 U.S. 175, 184 (1981); *Parker v. Flook*, 437 U.S. 584, 588 n.9 (1978); *Gottschalk v. Benson*, 409 U.S. 63, 70 (1972); *Cochrane v. Deener*, 94 U.S. 780, 787-88 (1876).

² *In re Bilski*, 88 USPQ2d 1385 (Fed. Cir. 2008).

Art Unit: 2628

3. Applicant's arguments, see page 13 of Applicant's Remarks, filed 01/15/09, with respect to the objections of claims 1, 4 and 45 have been fully considered and are persuasive. The objections of these claims have been withdrawn since informalities have been corrected for.

4. Applicant's arguments, see page 13 of Applicant's Remarks, filed 01/15/09, with respect to the 35 USC 112 rejection of claims 8, 10 and 45-49 have been fully considered and are persuasive. The 35 USC 112 rejection of such claims has been withdrawn since informalities have been corrected for.

5. Applicant's arguments filed 01/15/09 have been fully considered but they are not persuasive.

In reference to claims 45-49, Applicant argues the 35 USC 101 rejection and makes amendments to claim 45 to remedy the 35 USC 101 issue (see page 13 of Applicant's Remarks). The Examiner indicates that such amendments are, at this time, not sufficient to overcome the 35 USC 101 rejection. Again, at least one claimed step or element of the method type claim must be either tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. Therefore, the Examiner maintains this rejection and further has included all of the claims of method type suffering from this 35 USC 101 issue, in the above rejection as well.

Allowable Subject Matter

6. Claims 8, 10, 12-15, 50-53 and 57-66 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 2628

In reference to claims 8 and 12, the prior art of record does not explicitly disclose arranging a first plurality of physical paint sample cards on a display unit so that they are arranged in groups of varying hue in a first direction and chroma in a second direction while further arranging one or more combination or coordination paint sample cards adjacent each group of different hue and chroma physical paint sample cards, each color combination or coordination paint sample card containing a plurality of paint samples having the same base hue as the hue of a group it is adjacent to with a picture of a building or room painted with the plurality of colors on the color combination paint sample card, in combination with the further limitations of claims 8 and 12 respectively.

In reference to claims 10 and 13-15, 57-59, claims 10 and 13-15, 57-59 depend upon allowable claims 8 and 12 respectively and are therefore also deemed allowable.

In reference to claim 50, the prior art of record does not explicitly disclose a first plurality of paint sample cards arranged in hue groups, arranging one or more color combination style cards adjacent to each group of different hue, each combination card having a tri-fold card with three separate sections, each section containing a plurality of paint samples and a picture of a room painted with the plurality of paint samples on the section, each section of the tri-fold card having a picture of a different room, in combination with the further limitations of claim 50.

In reference to claims 51-53, claims 51-53 depend upon allowable claim 50 and are therefore also deemed allowable.

In reference to claim 60, the prior art of record does not explicitly disclose a first plurality of physical color combination cards including a plurality of paint samples which includes at least a base hue sample and a plurality of complementary color samples arranged adjacent to the base

hue sample and having a picture a room or building that is painted with the plurality of paint samples, in combination with the further limitations of claim 60.

In reference to claims 61-66, claims 61-66 depend upon allowable claim 60 and are therefore also deemed allowable.
